E. BUTTERICK & CO.'S
CELEBRATED
Patterns of Garments,
FOR
LADIES, MISSES, BOYS, AND LITTLE CHILDREN.

PRINCIPAL OFFICE AND SALESROOMS:

589 Broadway,
New York.

These Patterns possess the following advantages over all others:

FIRST. They are reliable, each Pattern having been *practically tested* before being offered for sale.

SECOND. They are of different sizes, so that persons can obtain a Pattern, requiring little variation.

THIRD. Each Pattern has a printed label, showing its size, the amount of Cloth, Trimming, &c., required, with necessary instructions for cutting and making, and a picture of the garment when finished.

FOURTH. They are more perfectly cut than they can be by the ordinary method, *each part being perfect and fitted*; the difficult parts are notched so as to be easily put together.

 Each of our Patterns has the name of the Proprietors printed on the label. Any others offered are spurious.

 Any of the Patterns specified in the within Catalogue can be procured of our Agents, or they will be sent by us post-paid, on receipt of price, to any part of the United States or Canada.

SEWING MACHINE COSTUME.

SAVING MONEY WITH SEWING MACHINES.

(From Country Homes, and How to Make Money.)

My advice is, to every young lady who has only a dollar in money, to expend fifty cents for a Bible and the remainder towards a good Sewing Machine. Young men and young ladies, who are just sipping the sweets of connubial felicity, before you get a bedstead, purchase a Sewing Machine. If you can't have both, sleep on the floor until you can earn enough with your Sewing Machine to pay for a bedstead. Saw off a half dozen pieces of maple boards for dinner plates rather than purchase a set of china before you have money enough to purchase a Sewing Machine. Saw off a lot of small logs for seats, rather than purchase chairs before you are able to get a Sewing Machine. Do not entertain the thought for a moment of getting a carpet, a dinner-table, or a looking-glass, until you have secured a good Sewing Machine. I will not stop to enumerate the ways in which both husband and wife can save money by getting a Sewing Machine; but beware of those which make a stitch that will unravel faster than a Machine can sew it. We were once swindled amazingly in a Sewing Machine which made a chain stitch. If a man, in climbing over a fence, happened to break a thread on a sliver, he is in danger of losing his pants; and if a lady chanced to break a thread in the skirt of her dress, she must seize every breath, or the wind might blow it away. I have seen those—and they are numerous—which make such an unsatisfactory stitch, that I would not accept a score of them as a gift.

I know a young dressmaker who persuaded a neighbor to lend her money enough to purchase a Sewing Machine. She found all the dressmaking she could attend to, at double her usual price per day, and in a few months the Machine was hers, and she began to save money.

Your wife may not be able to do much housework, but she can run a Sewing Machine with great ease. Employ a stout woman in the kitchen, and let your wife do sewing. In a few months she will save enough to pay the domestic for her services, and pay for the Sewing Machine also. If your wife has a good Sewing Machine she can make all your pants, coats and vests, and thus save enough in clothes to pay for the Machine in a few months. People who hire a Sewing Machine soon pay out enough to purchase one. An active girl and a Sewing Machine will save enough in one day to pay a woman for a week's labor in the kitchen.

I have in mind a farmer who has no taste for reading, who despises loafers, idlers and smokers, but who runs his wife's Sewing Machine after his labors in the fields are closed. If any man or woman has learned to run a good Sewing Machine, they can thus save money to buy a home before old age comes on.
